## FinanceCube signs contract with Emmers & Partner in the Netherlands.

*Emmers & Partners is based on the south border of Netherland and is an Independent Financial Adviser with clients all over Netherland.*

They are also running the popular internet based saving site called "SPAREN is leuker".

Emmers & Partners will offer a brand new service in the Dutch market based on FinanceCube technology. This is a breakthrough for our technology in the Dutch market, as we have done some marketing since 2007, without much effect. "We at FinanceCube hope this is the first important leap into a new part of Europe, and a sign of better market situation in our market segment" says Mr. Lasse Meholm, CEO at FinanceCube.

The Netherland is one of the largest markets for "real" Financial Advisers in Europe, and is well connected with Belgium and Luxembourg.
