New focus in Finland

Sungam Oy is a Helsinki based consultancy business, doing IT consultancy for the bank and financial market in Finland. They do a lot of high level consulting both in Finland and rest of Scandinavia.

From September Sungam will be our reseller in the Finnish market. The Finnish market has been through a turbulent period during the financial crisis, but report says the bottom is behind us and we are positive about the market situation and the FinanceCube penetration in the Finnish market.

FinanceCube have 2 customers in Finland already, signed in 2007.

FinanceCube have signed an agreement in august for sell and support for the Finnish market. "This will generate a new income stream for us and give us an interesting part of the Finnish market", says Lasse Meholm, managing director of FinanceCube. "We already have customers in Finland and our AdvisorCube platform has a Finnish language version" continues Mr. Meholm.
