FinanceCube signs new contract with Goteborg (Sweden) based product provider.

SGP, (Svenska Garanti Produkter) is a Swedish provider of structured investment products. They have provided the Swedish market with products since late 1990. Their focus is green investment and carbon neutral energy.

SGP bought a private banking company in Stockholm early 2011. This means that they needed a reporting software for their new private banking clients.

SGP will use AdvisorCube as their main reporting tool for their clients both for their new private banking customers, and for their existing structured product clients.

SGP will use AdvisorCube basic license, our CRM service and a few other of our value added services.

www.sgp.se

FinanceCube will provide our market leading technology AdvisorCube in this project. On top we will develop integration with even more of European leading providers like Victory Life, Friend Provident and others.

All advisers will have their own customer base on our platform.
