Press Release

April 2004

Financecube signs contract with

Financecube develops a new internet Web Platform for Discretionary Asset Management and Independent Financial Advisors and Intermediaries. The platform will be launched summer 2004. The contract signed 23. April 2004.

Morningstar will provide FinanceCube with Mutual Fund / Unit Trusts price feeds in all countries FinanceCube operates. We will collect price feed on the full universe of fund sold in each country. This is based on a once-a-day update of prices, following by a client P&L and valuation process. Morningstar will be able to supply us with prices from America, Europe and Asia.

This gives the effect that FinanceCube clients will have an automatic update of P&L and Valuation on their portfolios, included in they service, based on Morningstar high quality price feed.

I the near future we also plan to include Morningstar "X-Ray TM" Web Service in our menu of web services on a "pay-as-you-go" basis. This will allow our clients to drill down detailed information in their fund holdings. The intention is to integrate X-Ray seamless into our solution.
