

Press Release

Date: February 1st 2006

Contact: Lasse Meholm, lasse@financecube.net

FinanceCube is created to serve the needs of financial advisers, discretionary asset managers and private banking. FinanceCube provides a unique portfolio management service across asset classes, currency types, time zones and regions. FinanceCube enables advisers to manage client portfolio effectively at an affordable cost.

FinanceCube has developed innovative new web based software, host the internet server and connected the server to the financial marketplace and key providers like Morningstar, Financial Times Interactive Data and many more. Easy and totally secure.

New Technology director in Norway.

FinanceCube employed Mrs. Siv Rønstad from february 1st in our Drøbak office. Siv will be responsible for software development and hardware maintenance from same date.

FinanceCube is Microsoft registered partner and with Siv we will become Microsoft silver and later on Gold partner.

Our software development department on Cyprus (fully own company named SoftCube Ltd) will continue as earlier delivering high quality software development.

Siv Rønstad's previous job was as manager in TietoEnator Financial Solution in Oslo. She have worked with software development, project management and department management for asset management, private banking, financial portfolio management, mutual fund administration and financial advisers since 1995.

Siv will enable us to focus on higher speed and more productive use of our development staff.

Following Siv's employment Mr. Meholm, our managing director will use more of his time for prospecting and sales. His main focus will be on employ and bring up to speed sales personnel in Scandinavia, UK and BeNeLux.
